Install instructions

**Maintenance & Care** Goods used in construction are moisture-resistant, but not water-proof. It is important that your bathroom has sufficient ventilation. High humidity will lead to permanent dampness and mould, resulting in deterioration. Care must always be taken to dry any excessive moisture or water spillage. All cabinets should be installed at least 300mm away from showers or bathtubs. To maintain the finish on your cabinet and ceramic top use only a soft cloth and weak solution of non-abrasive detergent.
