

# Warming DRAWER

PRODUCT CODE: **EVWDB**

eurocooking

Warranty

## THREE WARMING FUNCTIONS

Functions are designed for all your needs, no matter if you want to either keep your food warm, or simply warm up your cups or dinner plates.

## FIVE TEMPERATURE SETTING LEVEL

Different temperature range is allocated to each function, which gives flexibility in choosing your desired temperature.

## LOW TEMPERATURE COOKING

Cooking meat at a low temperature over a long period of time, is a great way to lock in the moisture, adding freshness and flavour, which will also prevent the loss of nutrition.

## LARGE STORAGE CAPACITY

Extended size gives you great storage space to load 6 sets of standard plates.

## TIME DURATION SELECTION

This function provides you with a different operating time. You can simply choose how long you need.

## ANTI-SLIP MAT PROTECTION

The design is perfect to secure the position of plates or cups inside the draw, and prevent plates or cups moving or falling, while sliding out.

## FEATURES:
