Caroma® Valette

Plastic Hand Rinse Basin

Basin Size: 560mm x 204mm nominal

A compact hand rinse basin for general application incorporating a hand-towel rail conveniently located at the front of the basin and featuring a minimum projection-from-wall dimension of 204mm and an integrally moulded waste outlet.

- Material:** The Valette basin is injection moulded in polypropylene, a strong durable material with a high gloss finish which is easily maintained with a damp cloth or sponge.
- Tap Holes:** Basin available in: Two tapholes Code No.317010.
- Waste Outlet:** The waste outlet of 40mm diameter is integral to the basin.
- Bowl Capacity:** 3.5 litres.
- Overflow:** Overflow not available.
- Fixing:** The Valette basin is secured to the wall with a matching wall bracket which incorporates the hand towel rail. Includes a waste-tie bracket. Four fixing screws and wall plugs are supplied with the basin. Code No.317260.
- Colours:** White only.
- Dimensions:** All dimensions are in millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
