These instructions are for counter top models that are designed to be installed on top of a bench or vanity top.

There are basin versions incorporating a taphole and vessels with no taphole.

### INSTALLATION STEPS

1. Position the basin/vessel as required on the counter top. Mark the centre of the waste outlet hole.
2. If it is a basin with a taphole mark the location where the water supply hoses will need to pass through the bench top.
3. Use a jigsaw or similar to cut out the opening(s). Check-fit the basin..
4. Fit tapware and waste assembly to basin.
5. Apply silicone sealant to the counter top contact faces (do **not** use epoxy adhesive).
6. Fit the basin to the counter top.
7. Connect water supply and waste.
8. Apply finishing sealant to edges and smooth to an acceptable cosmetic finish.
