Note on Compliance with AS1428.1
In Special Needs applications the design of the installation must comply with AS1428.1- Design for Access and Mobility
For compliance with AS1428.1 the seat and flush button is a dark blue colour to provide contrast for the vision impaired.
The seat must have lateral stabilisers fitted and there is no seat flap. The Life Assist toilet Seat RB6044B complies with these requirements.
The flush button must be located between 600-1100mm high in zones specified in AS1748.1
A 4m pneumatic extension tube is available as an option for the flush button to permit remote location if desired, using the Remote installation kit JB92K.

* 1000mm recommended

All dimensions are in millimetres and are subject to normal manufacturing variation of +/- 3mm on all surfaces. As product development is ongoing BPA reserves the right to vary specifications without notice.
