IMPORTANT: Please read all of the instructions before installation.

General:

- 1. Nero recommends this product is installed by a licensed plumber in compliance with all relevant regional regulations.
- 2. Do not hydrostatic test the installation with this mixer installed. Damage to the ceramic cartridge may occur.
- 3. All pipe work must be thoroughly flushed prior to the installation of the mixer.
- 4. Do not remove the ceramic cartridge from the mixer when installing.
- 5. After installation all connections must be checked for leaks.
- 6. All outlets used primarily for personal hygiene shall deliver water at a safe temperature as per regional regulations.
- 7. This mixer is not recommended for use in uncontrolled heating systems such as wet-backs or solar heating units unless a suitable tempering valve is fitted.
- 8. It is the responsibility of the installer to ensure a waterproof seal is achieved between the product and mounting surface. If in doubt about the quality of the seal, remove the product and reinstall.

Steps:

- 1. Proceed to mount complete assembly refer to above diagram 1A for setting assembly depth.
- 2. Connect hot and cold pipes to concealed valve.
- Pressure test for leaks.
- 4. Water proof installation then proceed to fit off decorating plate, spout and handle.
